Project Gullaq, a remarkable social initiative, has left a lasting impression on me. It is the brainchild of two enthusiastic and dedicated teenagers who aim to contribute to the achievement of the UN Sustainable Development Goals by 2030. These dynamic young girls have created an innovative platform that empowers youth worldwide to make a positive impact, fostering an equitable and prosperous future for generations to come. Moreover, this initiative allows them to develop essential skills and gain valuable experience, preparing them for the future workforce.

What makes Gullaq truly unique is its approach to fundraising for social causes, infusing a deep sense of empathy and dignity into the process. By involving those who will be most affected by the world's challenges, the platform ensures that solutions are driven by real needs and experiences.

I am wholeheartedly convinced of the potential this initiative holds in tackling some of our most pressing global issues. Therefore, I extend my strong and unwavering support to the inspirational youth leaders behind Gullaq, **Myra Raj Kheterapal**, and **Samya Kheterpal**, for the prestigious Bharat Youth Award 2023. This award, designed to recognize and celebrate youth leaders who are instigating positive change, perfectly aligns with the essence of Gullaq, which can serve as a catalyst for transformative progress, putting India at the forefront of youth-driven initiatives aimed at achieving the UN SDGs.

I sincerely hope that the award jury will offer these remarkable young leaders an opportunity to present their solutions, recognizing the merit and potential impact of their platform on a global scale.
